Rosentile Porcelain Tile and Ceramic Industries Company is a distinguished member of the Nasseri Industrial Group.

Our journey began in 1990 in Birjand, a city in the southern part of Khorasan Province, with the establishment of Niloofar Tile Co. From the outset, the company focused on producing high-quality products, quickly gaining a significant share of the market.

In 2008, the Nasseri Industrial Group expanded its operations by establishing phases 2 and 3 of Niloofar Tile Co. in Birjand. This was followed in 2009 by the creation of Aida Ceram Tile Industries Company, which completed the group's product portfolio in ceramics and tiles. To cater to evolving tastes and preferences, the group introduced a highly advanced and modern production line in 2021 under the name Rosentile Porcelain. This line specializes in producing polished and nano porcelain slabs in very large sizes, utilizing some of the most advanced machinery in the country.

Rosentile Porcelain Tile and Ceramic Industries Company was established in 2021 to manufacture premium products using the latest methods and machinery, with a focus on exporting to regions ranging from Eastern Europe to Central Asia, while also serving domestic markets. The company takes pride in its significant contributions to Iran's ceramic tile industry, fostering entrepreneurship and generating substantial foreign exchange.

Our products are exported to various regions, including the Middle East, Southeast Asia, Africa, and parts of Europe. We remain committed to upholding the highest standards of quality and innovation, ensuring customer satisfaction both locally and internationally
